

Comedy Song--Blue Team

If we could talk to those animals
All those big white animals
Oh the lovely things we'd like to say!

We'd like to say to the Big Chief,
the really really big chief,
he ought to start a diet right away!
What can you say about their little chief
the furry furry little chief
we'd have to talk to him in chimpanzee.

CHORUS

Can you imagine talking to a hughes,
you would find him so confused,
he can't even go from A to Z.
And then there's arnie with his appetite,
eating everything in sight.
We're even missing campers recently.

CHORUS

People ask us have you seen a Zwicklus
we'd say ridiculous
It just can't be.
If you consulted with a huriwitz,
It would blow your mind to bits
listening to his constant reverie.

CHORUS

If we were asked to describe to you
What's left in this big white zoo,
don't you know it wouldn't take us long,
There's only lakey and the wolfman left,
In a class all by themselves,
One cleans johns, the other skis all wrong.

If we could talk with those animals
Squawk with those animals
Squeek, and grunt and snort with those animals,
Imagine how disgusting it would be.
