ZEUS TO APPEAR!!!

(AP) A special bulletin was received at the Waupaca News Desk that Zeus, the Greek God, is supposed to arrive here in Waupaca at 9:40 tomorrow morning. The special report was circulated through Greek channels via Mount Olympus and revolving news agencies. A press rep for Zeus said he would arrive by way of his own transportation and no-one is exactly clear how he does it every year.

He is coming to Waupaca to commence the Annual Olympics here at camp where 8 nations will compete in every type of competition possible. The object is to demonstrate good sportsmanship and to have fun.

A representative for Camp Waupaca said that "...we will throw out the red carpet to him, but we hope he doesn't bring rain with his mighty lightening bolts!"

DRAMA IN ACTION

By Barry Rocklin, Cabin 2

"Come, gentlemen," says the dramatics director Paul Warshauer. All gather around to see what the class will do today.

Either script reading, counsellor impersonations, (which includes walks, and facial expressions plus mannerisms) and improvisations, which are acted out scenes without scripts.

Usually in one period there are time for two big double improvisations.

The director, Paul, says he wants to learn more about nature and to learn more about dramatics. He has been at camp for two years as a counsellor and as a camper for 6 years earlier. We all look forward to many dramatic events in the near future.

LOST AND FOUND.....

Oh where, oh where can Larry Gordon's broom be?

-----Cabin 11 is missing Larry's personal broom. Please return to Cabin 11,

FIGHT THE ITCH TO SCRATCH,

By Mike Euer

Don't scratch! Don't even itch if you can help it. But if you must itch, don't scratch.

Scratching only improves your state of mind, and then only temporarily. It may feel good for a second, but blisters and skin irritations can result. These should be treated, but not by your finger-nails.

Scratching introduces germs--germs that breed infection and that's bad!

What do you do instead??? Ask Rosemary to apply a soothing ointment or lotion. Don't wear rough clothing next to the irritated area or it will scratch.

If nothing else helps, grit your teeth hum a happy tune, and tackle a job that requires concentration. If the itch gets unbearable, pat it gently. And, oh yes, do stay away from poison ivy.

If you follow these helpful "itchless" tips you are sure to have a much happier summer at good old Camp Waupaca!

special puzzle feature...

WAUPACA'S WISHY WORDS

By Kenny Robbins

(Unscramble the following words. Once you have them unscrambled, take the number letters and unscramble them too to fill in the blank;

UNSNISEH

AGMLBE

-----1-----

-----234-----

"YBCOE"

IPNOGHP

567

89

(Now unscramble the above numbered letters to fill this in:)

MRS. TOWNE, DID YOU KNOW THAT CHUCK SCHMIDT LIKES TO EAT....
